Profile

With over 9 years of experience as a Senior Full Stack developer, I've honed my skills in React, Node.js, React Native, NestJS, Next.js, and diverse databases. I thrive on challenges, leveraging my technical prowess and effective communication to spearhead projects and foster collaboration. From architecting scalable solutions to resolving complex technical hurdles, I've consistently delivered high-quality results. My passion for innovation drives me to stay abreast of the latest trends, ensuring our projects remain at the forefront of technology. Let's build something remarkable together.

Employment History

Senior Full Stack Software Engineer, Globo, Rio de Janeiro

MARCH 2023 – MAY 2024

As a member of the team at Globo, a prominent TV broadcaster in Brazil, I was involved in an internal project that manages payments, payroll, fees, and other financial transactions for allocations, professionals, and freelancers. Leveraging React (along with MobX) and Node.js (using the NestJS framework), I contribute to developing a robust and efficient system. My proficiency in React.js, JavaScript, Node.js, and Next.js allows me to create intuitive user interfaces and scalable backend solutions. Additionally, I utilize Amazon ECS for deployment, ensuring the project's seamless operation and performance. Working on this project at Globo, I play a key role in optimizing financial management processes and enhancing overall efficiency.

Project Manager | Senior Full Stack Software Engineer, SKY Brasil, São Paulo

MAY 2022 – MARCH 2023

As part of the SKY Brasil team, I contributed to a project aimed at enhancing the TV viewing experience through a website that activates the user's TV receiver and obtains signals for the new KU band. Leveraging technologies such as React.js and Node.js, I played a key role in developing a seamless and intuitive user interface. My expertise in TypeScript, JavaScript, Nest.js, and Next.js enabled me to design and implement efficient solutions that facilitate the activation process and optimize signal reception. By utilizing these cutting-edge technologies, I helped SKY Brasil deliver an enhanced TV viewing experience to its customers.

Senior Full Stack Engineer, Olist, Curitiba

MAY 2021 – MAY 2022

As a developer specializing in building business platforms, I focus on creating innovative solutions that leverage a company's reputation to list products across multiple marketplaces in Brazil. With expertise in React, Node.js, Next.js, Nest.js, and PostgreSQL, I design and implement robust and scalable platforms that streamline the process of showcasing products and expanding market reach. By integrating cutting-edge technologies and leveraging the power of Next.js for server-side rendering and Nest.js for efficient backend development, I ensure the seamless operation and performance of the platform. My proficiency in Node.js allows for the creation of dynamic and interactive user interfaces, while PostgreSQL enables efficient data storage and retrieval, ultimately contributing to the success of the business venture.

Senior Backend Software Engineer, Lyncas, Joinville

JANUARY 2021 – APRIL 2021

As a PHP/Laravel Developer, my primary focus lies in the development of e-commerce projects. Leveraging my expertise in PHP, PostgreSQL, and the Laravel framework, I specialize in creating robust and scalable online shopping platforms. With a keen understanding of e-commerce functionalities and best practices, I ensure seamless integration of features such as product listings, cart management, and secure payment gateways. My proficiency in PHP and Laravel enables me to build efficient and user-friendly web applications that meet the specific needs of clients and enhance the overall shopping experience for customers.

Senior Full Stack Software Engineer, Info Digitalle, Trombudo Central

SEPTEMBER 2019 – DECEMBER 2020

As a Laravel and React Developer, as well as a systems analyst, I specialize in driving the development and operations of projects. With a skill set encompassing TypeScript, React.js, PHP, Node.js, and more, I excel in creating dynamic and scalable web applications. My experience includes utilizing Amazon Web Services (AWS) tools such as Amazon S3, Amazon ECS, AWS CodePipeline, Amazon Route 53, Amazon RDS, and Amazon EC2 to deploy and manage applications efficiently. I also have expertise in database management systems like MySQL and PostgreSQL. With a focus on Laravel and Lumen frameworks, coupled with Linux proficiency, I ensure the seamless execution of projects from conception to implementation.

Full Stack Software Engineer, Escalasoft Tecnologia, Rio do Sul

DECEMBER 2018 – SEPTEMBER 2019

As a Full Stack Developer with experience in web development, I specialize in crafting robust software solutions. I honed my skills in Delphi, C#, and Android development while also gaining proficiency in database management systems such as MySQL, PostgreSQL, and Microsoft SQL Server. My expertise spans across multiple platforms, allowing me to develop versatile applications tailored to meet diverse client needs. From desktop applications to mobile and web-based solutions, I leverage my skills to create seamless user experiences. My comprehensive understanding of full-stack development enables me to contribute effectively to every stage of the software development lifecycle, ensuring high-quality and efficient outcomes.

Graphic Designer, ICAVI, Pouso Redondo

NOVEMBER 2018 – MAY 2018

As a Graphic Designer, I oversee the company's social media presence and website, ensuring engaging and cohesive visual content. I develop advertising materials and produce multimedia content to effectively communicate our brand message. Additionally, I create presentation templates and proposals to support sales efforts. Furthermore, I assist in organizing both internal and external events and exhibitions, contributing to the overall marketing and promotional strategy of the company.

Computer Technician, ICAVI, Pouso Redondo

MARCH 2017 – OCTOBER 2017

As the IT Specialist, I managed comprehensive computer hardware maintenance, including software installation and email infrastructure management. Additionally, I developed systems for IT management, observability, and alerts, enhancing operational efficiency. I oversaw telecommunications and internet service procurement, implemented robust backup strategies, and conducted electronic

surveillance monitoring for security. Budgeting for IT resources, access control, and meticulous network maintenance were also part of my responsibilities.

Full Stack Software Engineer, Nxfácil, Rio do Sul

FEBRUARY 2015 – JULY 2016

At Nxfácil, I developed and maintained key business routines including financial management, purchasing and sales, transaction statements, inventory balance, cash flow, bank accounts, and commission tracking. I also managed the integration and maintenance of electronic invoices (NF-e, NFS-e, and NFC-e).

In addition to these tasks, I worked extensively with PostgreSQL databases and utilized Amazon AWS for cloud services. I managed file sharing servers using SAMBA and configured and maintained Apache and Nginx servers, ensuring reliable and efficient operations across the company's IT infrastructure.

Treinee IT, Municipal City Hall of Trombudo Central, Trombudo Central

JANUARY 2014 – DECEMBER 2014

I worked as an IT professional at the Municipal City Hall of Trombudo Central, where I was responsible for maintaining computer systems, networks, and servers. My duties included troubleshooting and resolving technical issues, ensuring network security, and providing support to users. I played a key role in implementing and managing IT infrastructure, contributing to the smooth and efficient operation of municipal services.

Education

Bachelor in Information Systems, UNIDAVI, Rio do Sul

JANUARY 2015 – DECEMBER 2019

Bachelor in Software Engineer, Uninter, Rio do Sul

JANUARY 2020 – DECEMBER 2023
